

Shape Robot

For this project you will create a shape robot using two and three dimensional objects.

Requirements:

- Ahead of time collect two and three dimensional objects from around your home to use for this project (paper towel rolls, juice boxes, tissue boxes, small balls etc.).
- Create a shape robot using the objects you collected.
- Explain how you made your shape robot. Name and describe the different shapes that you used.
- You will be given 2-3 minutes to share your work with the class. Practice what you will say at home with an adult so that you will feel confident speaking in front of the class.

Bring your project to school to share on: _____
